(a) The abnormal increase of 41,771 or 76.59 per cent. in the population of the NAAF township and the decrease of 1,916 or 18.04 per cent. in the Rathedaung township is explained by the Deputy Commissioner, Akyah, to be caused by the transfer of the Kalapanam circle, containing 5,601 occupied houses and 20,768 souls from the Rathedaung to the NAAF township. Had not the transfer taken place the increase in the population of the NAAF township would have been at the rate of 21.90 per cent. and of Rathedaung at the rate of 30.96 per cent.

* As there are but 18,757 Europeans and Eurasians in Burma and the majority of them live in the large towns, no column for English was necessary in the returns of parent-tongue by circles. The number who returned English as their parent-tongue in Rangoon is 7,163. The return is given in detail in Imperial Table No. X.

PROVINCIAL TABLES.

HANTHAWADDY DISTRICT.

Note.—The division of the old Hanthawaddy district into two districts (Pegu and Hanthawaddy) in 1883 has rendered somewhat complex the comparison of the returns of the present with those of the past census. Hanthawaddy kept the Hlaing and Hmawbi, and Angyi-Tunte townships surrendering the Syriam, Paunglin, and Pegu townships to Pegu. But part of the Yethu circle, which belonged to Paunglin, was handed over to Hmawbi by Paunglin. The tracing of the division of the population of 1881 has been rendered still more complex (a) by the breaking up of the Angyi into two townships (Tunte and Kungyangôn) and (b) by the subdivision of the former revenue circles. Instead of the 28 circles in the three townships of Angyi, Hmawbi, and Hlaing we have now 37. New villages too have sprung up so that the identification of the distribution of the population is almost impossible. It has not been possible to obtain the figures of the population by occupations from the return of 1881 as the distribution into agriculturists and non agriculturists is only given for townships, and it has been seen that the old boundaries have not in all cases been preserved.

KUNGYANGON TOWNSHIP.—Table showing Population by Sex, Age, Civil Condition, Education, and Infirmities.

Occupied houses.	POPULATION			Area of township in square miles.	Density per square mile.	OCCUPATION.		Area in acres under cultivation.
	Both sexes.	Male.	Female.			Agriculturists.	Non-agriculturists.

PROVINCIAL TABLES.

PEGU DISTRICT.

The Pegu district was formed in 1883 out of part of the Old Hanthawaddy district and the Laya circle of the Shwegyin district. Details of the division thus effected are noted on the title-page of the Hanthawaddy district provincial tables. The district then consisted of three townships, Pegu, Paunglin or Hlègu, and Syriam. Pegu township has been divided into Payagale and Kawa townships and Syriam into Kyauktan and Pagandaung townships. The Yetho circle of the Paunglin township was left with Hanthawaddy; accordingly none of the returns of 1881 are of any use for the sake of comparison.

PROVINCIAL TABLES.

THIARRAWADDY DISTRICT.

NOTE.—The towns of Thónzè and Letpadan are situated in the Sanywe township. The town of Monyo is in the Monyo township, and Zigôn and Gyobingauk in the Gyobingauk and Minhla townships. Being under Town Committees their population is shown separately and is not included in, nor shown over again in, their respective townships. Nor are they of course shown in the village tables. But, being for a revenue purpose under the circle thugyi, they are included in the circle tables. Since 1881 the Mingyi township has been broken up into the Tapun and Gyobingauk township and Monyo into Monyo and Minhla.

Area and density of the townships of this district have been shown including the towns contained therein.

PROVINCIAL TABLES.

PROME DISTRICT.

A glance at the township tables will show that the population of the Shwele and Thégôn townships is decreasing. No special reason is given for this decline. It is reported that "several villages were ordered to be removed for harbouring bad characters and others were destroyed during the rebellion or by expeditions." The Deputy Commissioner subsequently noted that bad season may have driven cultivators away. This is probably the true explanation.

There is an inconsistency in the returns of areas. It will be seen that the total area of the district has remained unchanged, but the area of the townships has in some cases decreased. This is due to a mistake in the return of township areas in 1881. It will be seen that the total area of the townships exceed the area of the whole district by 446 square miles in the returns of 1881.

Occupied houses.	POPULATION.			Area of Municipality in square miles.	Density per square mile.	OCCUPATION.		Area in acres under cultivation.
	Both sexes.	Male.	Female.			Agriculturists.	Non-agriculturists.

PROVINCIAL TABLES.

THÔNGWA (MA-UBIN) DISTRICT.

Since the census was taken many changes have been made in the distribution of the townships and circles of the Thôngwa district. These changes have been adopted in the preparation of the district tables with the exception of the division of the Taungbogyi circle.

The Taungbogyi circle was split up into the two circles of Singu and Taungbogyi by Revenue Department Notification No. 21, dated the 24th October 1890; but as the subdivisional registers were sent up by the Deputy Commissioner before that date and as the provincial tables are based on those subdivisional registers, the division has not been shown. The villages marked with an asterisk (*) are comprised in the Singu circle and the rest form the present Taungbogyi circle.

The towns of Pantanaw and Danubyu are situated in the circles and townships of the same name; being under the Town Committees their population is shown separately and is not included in their respective townships; but, being for a revenue purpose under the circle thugyis, they are shown as included in the circle tables.

PROVINCIAL TABLES.

BASSEIN DISTRICT.

Bassein is the most populous of all the districts of Burma, as at the last census 475,002 persons were enumerated in this district.

The area of the Bassein district at the time the census of 1881 was taken was returned at 7,074 square miles in the provincial tables of 1881, but this is an evident misprint for 7,047 square miles the actual area.

After the census of 1891 was taken the Lemyethna township containing 57,204 souls was taken from the Bassein and given over to the Henzada district.

Since the census of 1881 the old Thigwin township was divided into two townships of Thigwin and Kangyidaung, the former keeping Moby North and South, Einmè, Thigwin, and Tanlebin circles gave over the circles of Pebin, Lezu, Kanywa, and Kangyidaung to the latter.

PROVINCIAL TABLES.

HENZADA DISTRICT.

On the night of the 26th February the Henzada district comprised an area of 1,048 square miles. The population of this district is the densest in Burma. On the 1st March 1891, three days after the census was taken, the area of the district was increased by the addition of the Lemyethna township, which was taken away from the Bassein district.

HENZADA DISTRICT.

PROVINCIAL TABLES.

THAYETMYO DISTRICT.

The Thayetmyo district in 1881 comprised an area of 2,397 square miles. After the annexation of Upper Burma "Myedè-kyan," comprising the townships of Minhla, Taingda, and Sinbaungwè were added to the Thayetmyo district. The area of these three townships is officially estimated at 737 square miles. The Deputy Commissioner points out that this estimate is probably much too low, but he cannot of course himself give the actual area. The Census office has no means of obtaining the true measurements of doubtful areas, but is forced to rely on the figures given to it officially.

PROVINCIAL TABLES.

AMHERST DISTRICT.

Since the publication of the census report of 1881 the Amherst and Moulmein Town districts have been incorporated into one district which is now known as the Amherst district. The area of this district is 15,203 square miles. It is thus next to the Upper Chindwin, the largest district in Burma.

Kawkareik town being a part of the circle of that name in the Haungtharaw township is not shown separately in the circle tables, but it has not been considered necessary to show the population over again in the village tables of that circle.

The Deputy Commissioner now reports that the following changes have been effected within the district :—

- (1) The Zathabyin and Zathin circles in the Gyning-Salween township have been amalgamated into one circle bearing the name of Zathabyin.
- (2) The Lakuparo circle included in the Yelamaing township.
- (3) The Mizan circle is included in the Salween-Hlaingbwe township.

PROVINCIAL TABLES.

TAVOY DISTRICT.

No alteration has been made either in the extent or in the distribution of the area of the Tavoy district by administrative divisions since 1881. The Deputy Commissioner reports that since the date of the census of 1891 the Kanyōngyun circle has been transferred from the South-Eastern to the Western township.

Notwithstanding that the area under cultivation in this district has been increased from 74,880 to 68,201 acres, an increase at the rate of 15.12 per cent.; the number of those returned as agriculturists has fallen from 59,997 to 58,784, a decrease of 2.02 per cent. This is the more remarkable because non-agriculturists have increased from 24,991 to 36,137, an increase of 44.6 per cent. No explanation of these figures can be given. A comparison of the provincial tables and the records in the Deputy Commissioner's Court show that in this district the census was carelessly taken in 1881, and there is therefore no reason to doubt the accuracy of the present returns.

Occupied houses.			POPULATION.			Area of district in square miles.	Density per square mile.	OCCUPATION.		Area in acres under cultivation.

PROVINCIAL TABLES.

MERGUI DISTRICT.

The past decade has seen no alteration made either in the extent or distribution of the area of this district. The only noticeable feature in the tables is the increase in the number of the Selungs (Salóns), which is due to better enumeration. This point has been mentioned in the report on the census, Volume I. The area of Mergui town given in the provincial tables of 1881 as being 147 square miles is a manifest misprint.

MERGUI DISTRICT.

595

PROVINCIAL TABLES.

TOUNGGOO DISTRICT.

Since the census of 1891 was taken, the following changes have been made in the circles and townships of the Toungoo district :—

- (1) The Myoma township kept the circles of Dwayawadi and Lähla and gave over the circles of Bahnaung and Yegyi to Thagava and Dinnyawadi to Zeyawadi townships.
 - (2) The two circles of Bónmadi and Mèbalan in the Bónmadi township have been amalgamated and called the Bónmadi circle.
- .

PROVINCIAL TABLES.

SHWEGYIN DISTRICT.

During the last decade the area of the Shwegyin district has been decreased by the transfer of the Laya circle to the Pegu district. This circle covers an area of 140 square miles. But the most important event has been the construction of the Pegu and Sittang Valley Railway. This has opened out the western part of the district and has led to the division of the Shwegyin township into two townships, one of which is called Shwegyin and the other Pyuntaza. The Shwegyin district is now divided into three instead of two subdivisions as the Pyuntaza township now forms the Pyuntaza subdivision. The Kyaikto town was constituted into a municipality on 19th January 1889.

PROVINCIAL TABLES.

SALWEEN DISTRICT.

No administrative changes have been made in the area of this district. The only point that requires explanation is the fact that whereas the total population shows an increase at the rate of 4.76 per cent, the number of agriculturists shows an apparent decrease of 9 per cent. since 1881. That this apparent decrease is incorrect may be gathered from the fact that a similar misstatement has been found in the area returned as being under cultivation in 1881, which is now ascertained to have 13,440 acres instead of 13,905 acres.

SALWEEIN DISTRICT.—Table showing Population by Sex, Age, Civil Condition, Education, and Infirmities.
